

LANDesk Portal Instructions

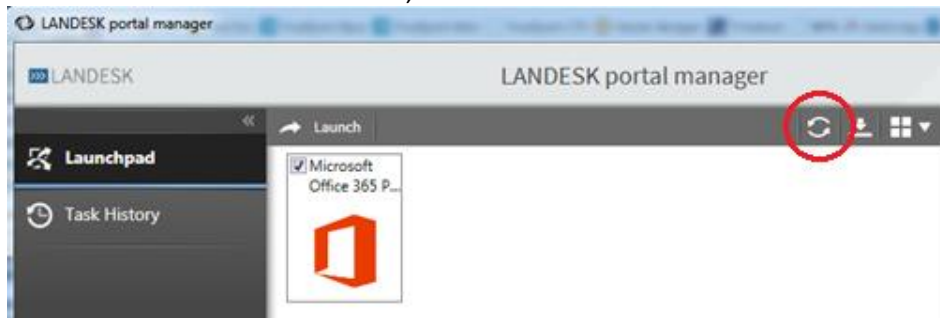

Pre-Installation requirements

1. Must be plugged into AC power and hardwired to the network
2. Turn off the wireless if using a laptop for faster downloads

Begin installation

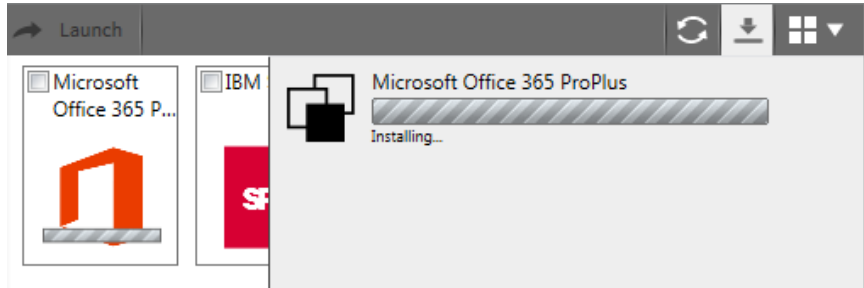

1. Close any open related applications.
2. Click **Start\All Programs\LANDesk Management\Portal Manager**
3. Place a check mark in the box next to the software you would like to install (Example shown below)

>>>**NOTE:** If no software is listed, click the refresh icon shown circled below

4. Click **Launch**. There will be a status bar in the Portal manager window indicating how the installation is progressing.

>>>**NOTE:** Do not click on Launch a second time as this will cause it to fail

5. When the installation completes, close the portal manager and start using the new software.
