

Alegent Staff,

Alegent employees are issued Alegent owned computers and those systems are supported by Alegent designated technicians. The only circumstance where an Alegent employee may have a separate, Creighton computer is if that Alegent employee maintains a separate physical office wherein he or she does Creighton academic research. Those systems should be properly labeled as Creighton property and may be supported by Creighton/DoIT technicians.

Please do not contact Creighton/DoIT technicians for support of Alegent computers, even if you are connecting to Creighton resources such as e-mail. Creighton/DoIT technicians cannot work on Alegent systems. Please contact Alegent support who will reach out to Creighton/DoIT technicians as needed.

Best Regards, The DoIT Support Team.
